

Let's Talk Telephones...

Contempo Phone

A beautiful accent for any room, any decor in your home or office.

The Contempo[®] Phone brings you versatility and convenience.

Both the regular dial and the speedy and convenient TouchPhone[™] pad are located in the handset for quick and easy calling. Contempo Phone is equally at home as a table model or mounted on the wall.

Choose from 10 fabulous colours to match every mood or setting.

For more information, call your local Bell Canada business office, or visit your Phonacentre and let's talk about the beautiful Contempo Phone.

Color choice is free.
 Contempo[®] is a Bell Canada
 trademark. TouchPhone[™]
 also available in some areas.

Extension Telephones and TouchPhone Service

Telephones are at home everywhere. Save yourself steps and time with convenient extension telephones in the kitchen, the bedroom, the family room — just about anywhere you want. Try the convenience and speed of TouchPhone calling. It is now available almost everywhere in Ontario to Bell Canada single line customers. Select one of the smart colours* shown below. Call your local Bell Canada business office or visit your local Phonecentre and let's talk about convenient extension and TouchPhone service.

*Some of these colors require special ordering.

Business Telephone Services

The Logic[®] 10 and other multi-line telephones were designed to make your business operations more effective. The Logic 10's modular so features like the Logic Handfree and Logic Dialer can be plugged in as you need them. It can be colour matched to any decor.

It is available in satin white or champagne grey with your choice of faceplates in sand, green, lilac, brown or purple. The regular multi-line telephones are available in grey, green, beige, black and ivory.

Ask about the availability of convenient TouchPhone service in your area.

Handfree Services

With a Handfree Unit you can carry on your telephone conversation while assembling material, making notes or checking files. Carry on working when someone else puts you on hold. No need to hold the handset or try to balance it on your shoulder. Handfree is great for local and long distance calls by yourself or with a group so everyone can participate. This conference ability can save separate and time-consuming business trips. The Logic Handfree plugs into the Logic 10 set and comes in the same colours. The Companion[™] 2 Handfree Unit can be added to your regular telephones.

It is available in beige, green and champagne grey.

Automatic Dialers

The Logic Dialer and Teledialer[™] 32 dial your calls automatically. To save you time, they store 30 frequently called local and long distance numbers. Stored numbers can be changed in seconds. For your other calls, the dialer provides the convenience of TouchPhone calling.

A special button dials the last number called when using the TouchPhone service. The Logic Dialer comes in the same colours as Logic 10. The Teledialer 32, for use with regular telephones, comes in simulated wood grain or champagne grey. Call your local Bell business office or visit your Phonocentre and let's talk business.

Radio Communication Systems

For people on the move. Whatever your needs, radio communications can make you and your business more efficient and productive ... and with today's growing costs and time pressures, that's important. Bell Canada has a wide range of radio products — Bellboy, more product pages to reach you within the coverage area — private mobile, 2 way-voice communication for your fleet — shared frequency mobile for the small fleet owner — public mobile for the person who needs access to the regular telephone network.

You can benefit from our years of system design, experience and expertise. All this plus maintenance included in the package. Find out how you can benefit by calling your local business office and let's talk communications that keep you in touch.
